DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Norman P. Soloway on 10 June 2004.

The application has been amended as follows: Insert claim 6.

Claim 6: The gas treatment apparatus as set forth in claim 2, wherein said wide end surface has a generally crescent shape.

EX. AMEND
6/10/04

Allowable Subject Matter

1. Claims 2-6 and 15-29 are allowed.
2. The following is an examiner's statement of reasons for allowance: The closest piece of prior art, with regards to the teaching of a gas feeder with a plurality of like gas outlet holes in a predetermined direction and with opposing convex and concave surfaces, is U.S. Patent No 5,618,349 to Yuuki. **However, Yuuki fails to teach or fairly suggest the gas feeder comprising semi-cylindrical side surfaces** as recited in the above-mentioned claims. Applicant has disclosed that a gas feeder with the combination of the convex and concave surfaces along with the semi-cylindrical side surfaces and a reduced cross section (as claimed) allows for the advantage of uniformly supplying a processing gas.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
